Do.	C.—Showing working of the Remission System	82 & 83
Do.	D.—Showing the nature of the crimes for which convicts were imprisoned	84—99

No. 4703 of 1921.

INSPECTOR GENERAL OF PRISONS' OFFICE:
Poona, 20th April 1921.

From

LIEUT.-COLONEL F. O. N. MELL, C.I.E., M.B., C.M. (Edin.),
D.P.H. (Camb.), I.M.S., Inspector General of Prisons,
Bombay Presidency;

To

THE SECRETARY TO GOVERNMENT,
Home Department,
Bombay.

Sir,

I have the honour to submit the Annual Administration Report for the year 1920, together with the usual Statistical Tables, on the Prisons and Jails in the Bombay Presidency, including the Province of Sind and the Settlement of Aden.

I was in charge of the Department for the whole of the year.

JUDICIAL.

2. The number of Central, District, Special and Extra-mural Prisons has undergone no change. Statistics of the Third Class Subsidiary Jails and Lockups have been grouped together as in previous years.

3. The number of convicts confined during the year shows a considerable decrease (21,417), being 127,872 as compared with 149,289 in the year 1919. The daily average population shows a decrease also (1,466 as compared with 1919).

4. The following table, which compares the figures of the past two years, refers to the admission of convicts into Prisons and Second Class Subsidiary Jails only :—

Statement No. I—Number and disposal of convicts.

		1919.			1920.		
		Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year	Prisons ..	10,364	289	10,653	11,255	297	11,552
	Jails ..	71	3	74	81	3	84
Imprisoned during the year	Prisons ..	22,045	1,006	23,051	17,785	882	18,667
	Jails ..	488	34	522	340	28	368
Total ..	Prisons ..	32,409	1,295	33,704	29,040	1,179	30,219
	Jails ..	559	37	596	421	31	452
Grand Total ..		32,968	1,332	34,300	29,461	1,210	30,671
Daily average strength ..		11,266	279	11,545	10,852	319	11,171

5. The number of convicts admitted into Prisons and Second Class Subsidiary Jails decreased by 4,538.

The decrease seems to go hand in hand with more favourable grain prices and therefore better life conditions, resulting in less thefts and minor crimes.

6. Releases show an increase under the following heads :—

Appeal	.. .. ..	1,204 against 1,086 in 1919.
Remission	.. .. ..	3,627 against 2,875 in 1919.
Transferred beyond seas	.. ..	125 against 100 in 1919.
Do. Lunatic Asylums	.. ..	25 against 8 in 1919.

Releases by order of Government and of military authorities as detailed below (214) :—

Released in January 1920 on the issue of the Royal Proclamation ..	72
Released by order of military authorities	69
Released in celebration of signature of Peace	1
Released and sent to Salvation Army Home, Bombay	37
Released and sent to Criminal Tribe Settlement, Bijapur	14
Released and sent to Released Prisoners' Aid Society, Bijapur ..	3
Life transports released on completion of 14 years' imprisonment ..	4
Prisoners remanded to jails from Jail Labour Corps, released ..	3
Released and sent to England	2
Released on finding that they were convicted on false evidence ..	2
Female prisoner was released and sent to Bai Motlibai Hospital for confinement	1
Released on account of sickness .. .. 1 each from H. M.'s House of Correction, Bombay, Bijapur, Thana, and Sukkur and 2 from Yeravda Central Prison.	6
Total ..	214

One comforting point here is the releases under remission. It makes one think that remission is being better understood, and sought after.

One hundred and eight lifers and 17 termers were deported to the Andamans *viâ* Alipore against 83 life transports and 17 term transports in 1919. We were much handicapped on account of infectious diseases breaking out constantly in Thana (influenza, mumps, small-pox, and chicken-pox).

7. *Religion.*—Decrease under important heads.

Age.—The number of juveniles under 15 years of age shows an increase (36 against 33 in 1919). The appreciable increase in the admissions was at Yeravda (7 against 3 in 1919), at Aden (10 against 1) and in Deesa Subsidiary Jail (4 against nil).

Statement No. II—Religion, age, education and previous occupation of convicts.

Of the 31 males and 5 females convicted during the year, 6 males and 1 female were previously convicted. One male was released by order of the High Court, and two were handed over to their parents, on furnishing security. The subjoined table shows the sentences awarded in the case of the remaining 26.

In 139 cases the provisions of section 562, Criminal Procedure Code, were advantageously used.

Sentenced by					Total.
Days.		Months.	Years.		
1 to 7	7 to 15	1 to 6	Under 2	2	
7	8	7	2	2	26

The ages vary from 5 to 14.

Education.—The percentage of literates was higher, but the actual number was less. Nothing of interest to note here.

The percentage of males and females admitted to the free population (according to the census of 1911) was 0·177 and ·01 respectively.

Statement No. III—Nature and length of sentence.

8. All the important heads show a decrease, except that for female life transports (24 against 17).

All round there is a decrease under simple, rigorous and solitary confinement prisoners.

The number of prisoners sentenced in Bombay for "Seven days and under" in default of payment of fine was 225 against 366 in 1919. This is, I hope, due to pointing out that these light punishments make criminals rather than deter them from coming to jail. The number of those sentenced to one week and under and admitted into H. M.'s Common Prison, remained stationary, *i.e.*, 176.

These sentences, when given in Bombay especially, are absolutely futile, because, owing to acute overcrowding and the necessity for trying to segregate new admissions, to prevent spread of diseases, these cases have little or no work to do while in jail. I have started oakum picking for them. But when I first came, they were doing nothing at all.

Statement No. IV—Reconvictions.

9. The previously convicted prisoners classified as habituals show a decrease (2,313 against 2,573). The number of habituals (*vide* subjoined statement) identified by Jail Officials was 74 against 91 in the year previous. The statement does not include 1,579 prisoners sentenced under Chapter VIII of the Criminal Procedure Code. The admissions in Sind under this heading were 912 against 615 in 1919. If this goes on increasing, we shall have to consider as to whether a small new jail should not be opened for these cases alone.

There has been a better separation of habituals from casuals this year, but Superintendents have still much to do in that respect. In spite of overcrowding, I think the separation can be stricter. This year they were given distinctive clothing. And any one can now distinguish a habitual from a casual, half a mile away. He has a thick double stripe lengthwise on his coat and round the foot of his trousers.

The clothing for transportation prisoners will soon be ready. There are three thick stripes on the cloth. Lengthwise on coat, crosswise on trousers.

1	2	3	4	5	6	7	8

	Total, 1920 ..	18,667	2,236	3	74	2,313	12.4
	Total, 1919 ..	23,051	2,459	23	91	2,573	11.2
	Total, 1918 ..	17,725	1,911	30	70	2,011	11.3

10. From information supplied by the Inspector General of Police it appears that 1,717 persons were identified as old offenders in the Bombay Presidency (inclusive of Sind) against 2,088 in 1919.

Statement No. V—Escapes (Convicted prisoners).

11. The number of escapes of convicted prisoners from prisons, extra-mural gangs and second class sub-jails has been 16 against 23 in 1919.

There were 3 escapes from inside (2 from Thana and 1 from Karachi) and 13 from outside the prison.

From Thana 2 transportation convicts escaped, under what looked suspiciously like collusion on the part of some of the staff. About a week before, I had pointed out to the Superintendent, that he had a large number of transportation convicts (awaiting transfer to the Andamans); and that some would be sure to try and escape, and that he should take extra precautionary measures to prevent this. The precautions taken were insufficient, and the state of warders' discipline left much to be desired. When one finds the head of a pickaxe eighteen inches long, and a nail nine inches long, in a cell, every nook and corner of which can be easily seen, it is evident the search of prisoners has either been perfunctory, or totally neglected. The escape was not discovered till opening out, which shows the patrolling was very indifferent.

These two prisoners seemed to have had a sense of humour, for they left their caps on the back verandah of the Superintendent's quarters.

All ranks were suitably dealt with, and a wholesale transfer of warders made.

In Karachi, also, the escape was not discovered till opening out in the morning. Here the prisoner seems to have done pretty much as he liked. He hollowed out the cross *wooden* bar (in my opinion there should be no *wood* on a cell or barrack door—it is a weakness in construction, which has constantly been taken advantage of in this Presidency) at the top of the door, and filled up the hollow with mud. Then, when opportunity occurred, he wrenched this bar out. With it he broke a lock off the factory godown, helped himself to some cot tape, attached it to the bar, flung it over the outer wall, and climbed up and over, by means of the tape.

It is obvious here again that there was little or no patrolling going on. There may have been collusion also ; but one could never get to the bottom of it. The staff concerned were dealt with, but the escape reflected little credit on the jail.

Of the escapes from outside little need be said, except that in all cases the warders were at fault.

In one case, in Thana, a warder who had put in his resignation, was put in charge of prisoners who belonged to a tribe of wanderers. This was simply asking for it. Thana has the melancholy satisfaction of having 4 escapes to its debit.

Of the 13 cases, 5 were recaptured. Two escapes were really not from jail, but while en route, to other places. (*Viz.*, on steamer going to Karwar; and one Police at Railway Station, Bijapur.)

All concerned in these escapes were suitably dealt with.

Statement No. VI—Offences and punishments.

12. The number of offences dealt with by Criminal Courts was 30 against 32 in 1919 as detailed below :—

	1919.	1920.
Section 52, Prisons Act.		
Relating to work	16	8
Breach of discipline	1	2
Indian Penal Code.		
Attempt to escape or escape	13	8
Culpable homicide not amounting to murder, sec. 304 (2)	1	..
Rioting (sec. 147) and voluntarily causing hurt (sec. 323)	1	..
Assault	..	12
Total ..	32	30

13. The number of offences dealt with by Superintendents increased by 5,062 (from 17,199 to 22,261), the average population being 11,171 against 11,545. Minor and major punishments increased by 3,887 and 1,175 respectively.

I do not think some of the Superintendents yet realize the use that can be made of section 52 of Prisons Act. But I have tried to explain it to them.

	1919		1920	
Offences dealt with —				
By Criminal Courts	32		30	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents—				
Relating to work	5,294	2,852	8,002	3,414
Do. prohibited articles	1,479	748	1,724	707
Do. assaults, mutiny and escapes ..	235	267	120	377
All other breaches of Prison rules	4,335	1,989	5,384	2,533
Total ..	11,343	5,856	15,230	7,031

14. The total number of major and minor punishments awarded by Superintendents was 23,249 and the total number of offences 22,261. The difference of 988 is due to the award of combined punishments.

	1919.	1920.
Punishments inflicted —		
By Criminal Courts	32	30
By Superintendents —		
Warnings	3,061	3,311
Penal diet	1,265	2,425
Separate, cellular and solitary confinement	83	115
Hand-cuffing and link fetters	3,470	4,501
Other punishments	3,626	5,168
Total ..	11,505	15,520
Separate, cellular and solitary confinement	242	309
Penal diet with solitary confinement	67	67
Fetters or hand-cuffing behind or to a staple	3,650	4,372
Corporal punishments	25	46
Combination of minor punishments	71	29
Other punishments	2,547	2,906
Total ..	6,602	7,729
Grand Total ..	18,139	23,279

15. Of the 23,249 punishments awarded by the Superintendents 15,520 or 64 per cent. were minor and 7,729 or 36 per cent. belong to the major class. Warnings formed 14·2 per cent. of the total number.

Punishments were in excess this year, and were given in the following prisons :—

His Majesty's Common Prison,
His Majesty's House of Correction,
Yeravda Central Prison,
Ratnagiri District Prison,
Ahmedabad Central Prison,
Karachi District Prison,
Hyderabad Central Prison,
Sind Convict Gang.

On scrutinizing them, one sees they were chiefly minor, given for dirty clothing and kit, slight breaches of jail discipline and tasks ; except in Karachi and the Sind Gang, where the number of major punishments was large. I had to comment on the lack of discipline, when I visited both these jails, and the Superintendent tightened it up in each case.

In the Sind Gang, in consequence of a number of changes in Superintendents and staff, the prisoners were out of hand. But I noticed a marked improvement at my last visit. Of all the convicts in this province, the Sindhi is inclined to be the most turbulent. And one must keep him well in hand. I think he quite understands the situation, as long as one combines justice with strict discipline.

I have had to explain in some instances—a few only—that punishments were inappropriate, and several times, that to recommend taking away remission altogether, was to make a prisoner desperate—as he had nothing to look forward to. And you must give a man hope, while he is in prison, or you will get little out of him.

Out of 22,261 offences, 2,595 habituals were responsible for 6,524 and 6,056 non-habituals for the balance of 14,737 offences. The percentage of habituals including those under section 110 of the Criminal Procedure Code is 19·4 calculated on admission rates.

16. The subjoined table furnishes details of floggings inflicted on convicts in various prisons. The total number of corporal punishments has increased from 25 in 1919 to 46 in 1920 and are accounted for as under. Of these, Yeravda Central Prison heads the list with 10 :—

His Majesty's Common Prison—three : all for unprovoked assault on a night watchman.

Yeravda Central Prison—ten : one for attempting to break out of his cell ; one for helping the above prisoner : one for assaulting a foreman in the Press ; three for indusing disease ; one for refusing to work ; one for insubordination to the Superintendent ; one for making false complaint that no medical attention was given when asked for ; one for refusing to obey orders and assaulting a convict overseer.

Of these, four or five might have been dealt with in another way.

Floggings should generally be reserved as a very last resort, and then the full punishment should be given. To give a man 10 stripes is only trifling with the punishment, in my opinion. It should generally be kept for severe cases of assault.

There are many other ways of punishing for short work. When these are all exhausted twice over, then one may begin to think of flogging.

Deccan Convict Gang—two for unprovoked attacks on convict officers.

Bijapur Prison—one for being insolent, attempting to assault convict overseers, and feigning illness.

Karwar Prison—three : one for refusing to be vaccinated and assaulting a convict warder ; one for breach of jail rules and assaulting a night-watchman ; and one for unprovoked assault on a convict warder.

Ratnagiri Prison—two : one for attempting to commit suicide ; and one for assaulting a warder.

Thana Prison—six : four for assaulting night watchmen and prisoners ; one for assaulting a Sub-Assistant Surgeon ; and one for short work.

Ahmedabad Central Prison—one ; for assaulting a night watchman.

Rajkot Prison—one ; for persistently refusing his food, not doing any work, and malingering.

Hyderabad Central Prison—eleven : 4 for assaulting prisoners and seven for refusing to work or to be locked up. These seven were concerned in the strike, when the "Pir" was confined in jail.

Sind Convict Gang—four; one for refusing to go to stone quarry in combination with others; 1 for short work and 2 for refusing to work, and instigating others to do the same in a body, and to disobey orders.

Aden Prison—two; for making a combined attack on a prisoner with heavy canes.

Prisons.	1	2	3						4	5	6	
	Total number of male prisoners for the year.	Total number of prison offences.	Total number of prisoners punished by whipping.						Percentage of column 3 to column 1.	Percentage of column 3 to column 2.	Number of prisoners in whose case (*a*) death or (*b*) illness was directly or indirectly the effect of corporal punishment.	
			5 to 10 stripes.	Above 10 to 15 stripes.	Above 15 to 20 stripes.	Above 20 to 25 stripes.	Above 25 to 30 stripes.	Grand total.			(*a*)	(*b*)

Total, 1919 ..	32,495	13,913	3	2	4	10	6	25	0·1	0·2	..	..

17. *Fetters.*—Nine thousand nine hundred and eighty-five prisoners were fettered against 11,083 in 1919; mostly prisoners employed extramurally for purposes of security (7,043).

Remission system.

18. Three thousand six hundred and twenty-seven prisoners were released under the system against 2,875 in 1919. The percentage of those released under the remission system, if of average good conduct up to the date of release, was 98·3 against 97·8 in 1919. The practice of mustering prisoners and reading and explaining to them the benefits of the remission rules requires to be done more systematically.

At my inspections I found that many prisoners did not know the meaning of remission. And in some cases even convict officers did not. Unless a man knows that remission means he will get out of prison sooner, all the effect of giving remission is lost. I have impressed this on the staff and ordered that it should be explained over and over again to the convicts until it is understood.

Special awards under rules 514 and 519, i.e., remission for one year's good conduct and for doing special work, were granted to 2,323 and 2,223 prisoners, respectively (against 2,002 and 2,231 in 1919).

The practice of promoting prisoners under sentence of one year, in the absence of suitable long-term prisoners, was adopted in some prisons, and was found to work fairly satisfactorily.

Statement No. VII—Convict Officers.

19. The average number employed as prison officers was 1,153 males and 13 females against 1,165 and 11 respectively in 1919. The total number of punishments was 2,893 against 2,540. The convict officer as a rule justifies his existence. And although the plan of substituting paid warders for them is an ideal one, I do not think it is practicable—owing to the heavy expenditure involved.

Diet.

20. The statement requires no comment. No change from last year.

Statement No. XVII—Under-trial prisoners.

21. There was a large decrease in under-trial prisoners admitted, 15,732 (89,103 against 1,04,835 in 1919). Also a large decrease in daily average, 1,091 (2,530 against 3,621). The same cause for the decrease under convicted prisoners as given in paragraph 5 of the report is attributable to the decrease under under-trial prisoners. I found very few cases of undue detention of under-trials. The Superintendents were ordered to bring all cases over a month (exclusive of Sessions cases) to the notice of the District Magistrate, for action, if necessary.

22. The number of adolescents or juveniles detained as under-trials for prolonged periods has been reduced, and the reduction is appreciable. The following table compares the figures for 1920 and 1919 according to detention periods :—

Year.	2 to 3 months.	3 to 4 months.	Over 4 months.
1920	35	12	10
1919	47	25	35

23. Twenty under-trial prisoners escaped against 61 in 1919. All of these escaped from Third Class Subsidiary Jails and Lockups. The number has been much reduced, and there is nothing of importance to bring to the notice of Government.

24. The number of deaths among under-trial prisoners was 58 against 71 in 1919 :—

In Prisons	12	against	4	in 1919.
In Second Class Sub-Jails	*Nil*	,,	3	,,
In Third Class Sub-Jails and Lockups ..	46	,,	64	,,

Of the 12 deaths in Prisons His Majesty's Common Prison, Bombay, is responsible for 6 and Bijapur Prison for 3. In the Common Prison, all, except one, were admitted straight into hospital.

One, a case of suicide by hanging, was of a most deliberate nature. He hanged himself by his dhoti on a door projection, while two others were sleeping in the cell with him. This took place in the intervals between the rounds of the watch at 3 a.m. He was under-trial for voluntarily causing hurt, section 326 of the Indian Penal Code.

25. The number of under-trials remaining on 31st December 1920 was :—

	Males.	Females.
Prisons	485	26
Second Class Sub-Jails	98	3
Third Class Sub-Jails and Lockups	2,000	132
Total ..	2,583	161

Civil prisoners.

26. The number of prisoners decreased (522 males and 7 females against 547 males and 6 females in 1919).

I am endeavouring to arrange to remove the civil prisoners in His Majesty's Common Prison to some other spot, thus giving up what is about one quarter of the present Jail area, to relieve overcrowding. It is hoped the plan will go through this year.

FINANCIAL.

Statements Nos. IX and X—Expenditure.

27. Statement No. IX includes charges for inspection and general superintendence. Sale-proceeds of garden produce have been deducted from the total charges. The gross expenditure has decreased (Rs. 21,98,623 against Rs. 23,27,911). The cost per head was Rs. 160-7-7 against Rs. 153-7-11.

Establishment.

28. The total cost and cost per head as compared with the last year have slightly increased (Rs. 4,72,015 against Rs. 4,39,986; Rs. 34-7-3 against Rs. 20-0-2). The increase (Rs. 32,029) was due principally to the following factors:—

(1) the increased pay of the Superintendent, Yeravda Central Prison, being an I.M.S. Officer;

(2) grant of a provisional increase of 20 per cent. in the rates of pay of non-medical Superintendents of certain prisons;

(3) temporary and provisional allowance to clerks, warders, and Sub-Assistant Surgeons; and

(4) the appointment of 10 warders for condemned prisoners at Hyderabad.

Dietary charges.

29. It is satisfactory to find that the total cost and cost per head has appreciably decreased (from Rs. 14,56,761 and Rs. 96-0-11 to Rs. 12,75,796 and Rs. 93-1-10 respectively), the causes being—

(1) decrease in population;

(2) favourable rates of provisioning articles.

Gardens.

30. The value of vegetables and other supplies from the jail gardens was Rs. 93,770 against Rs. 88,353 in 1919, an increase of Rs. 5,417.

This is in my opinion one of the most important industries of the jail. Because it is here one can save Government money, teach the convict a certain amount—even if little—of something useful to him on release, and make the jail self-supporting in a very important branch of work. I do not think nearly enough energy has been put into this part of jail work.

It is an axiom in most Provinces that jails should be self-supporting, in the case of ordinary vegetables. There are a few articles like potatoes and some condiments for which a large amount of ground, and extra care, and supervision is required.

Taking the central jails in review, the only one where the garden is poor is *Yeravda*. Here there is a shortage of water in the hot months, and the land has been overworked and not worked properly. But there is a large amount of land about that can be, and has not, been used—notably a very large piece on the Asylum side. The question of water-supply I hope to settle next financial year.

At present the item for buying vegetables for so large a community is a very heavy one.

The *Hyderabad* garden was flourishing when I saw it, and the Superintendent, Khan Bahadur K. M. Clubwala, has expended a good deal of time and energy on it. I am glad to take notice of it here. He is paying extra attention to condiments and onions this year.

Ahmedabad, in spite of an extremely bad rainy season, has managed to do extremely well. Here, again through the exertions of the Superintendent Khan Bahadur N. R. Wachha. I would like these jails to get their jailors to learn something about gardening. It is an important part of a jailor's work, and one which seems to have been neglected. And it can be learnt by experience only.

Thana Jail has, by my orders, been supplying the two Bombay Jails, but not as regularly as I would wish. As it has a large garden, and they have been allowed to use a large number of convicts, a good outturn should follow. I would much sooner see the outturn go to Yeravda and the Bombay Jails than sold to the public, showing a credit in the Treasury. This Treasury credit looks very nice, but is not so useful from our point of view.

His Majesty's House of Correction.—Here I am glad to give credit to Mr. F. B. Plunkett and Mr. T. W. Marshall, the jailor, who, at my suggestion, worked up a little bare patch of ground inside the jail enclosure, and have supplied the prisoners with vegetables for four months. It only shows what can be done, if you make up your mind to do it. They had quite an uphill job, and made a success of it. And yet I dare say the first look at that bit of ground filled them with despair. Some of their attempts have resulted in failure, but they persevered, and success followed.

The Common Prison has no spare ground for a garden. All vegetables have to be bought or supplied by other jails.

In Ratnagiri they have had an uphill task this year—bad rains, uneven rain when it came, and shortage of water. And yet no assistance from contractor for vegetables. I have seen the place, and know the fight they must have had. So I can heartily congratulate the Superintendent, Khan Bahadur S. M. Mehta, and jailor, Mr. P. A. Fernandez.

In Karwar there is practically no soil. As the jail is not likely to be shifted, I suggested carting the soil to it. This no doubt will take years, but the labour is not wasted. The Superintendent says " the practice of bringing black soil from Bhaikul is being continued ".

In Bijapur the Superintendent, Dr. J. C. DeQuadros, L.M. & S., and jailor, Mr. D. H. Cowper, have taken great pains over making the garden a success. Their difficulties have been want of rain, want of seasonable rain, and the breaking into the garden by thieves. These latter on two occasions did a great deal of damage to growing stuff, besides digging up a large quantity of onions and robbing nearly all the brinjals.

Mr. R. E. Elliott, I.C.S., being a great gardener himself, has been most helpful in giving hints to the staff on gardening in Bijapur.

At Sukkur I am happy to acknowledge the pains taken by Khan Bahadur R. J. Petigara, L.M. & S., and his jailor, Mr. Chetanram. Owing to the position of the jail, there is no proper garden land available. But, here again a small plot, a short distance away, has been cultivated, with the help of all the sullage water, and the convicts supplied entirely during June, July, November and December and partially during the remainder of the year. This is an extremely good result, when one sees the small bit of ground they have for the purpose. I have acquired, through the good offices of the Collector, another small plot adjacent to the above. This, after a good deal of preparation, will be a welcome addition.

The Shikarpur Jail was ordered to supply vegetables to Sukkur and did so for several months.

In Shikarpur the prisoners' principal occupation is gardening. Owing to its position, it is rather difficult to get rid of surplus, even after Sukkur has been supplied. I have a plan for selling the surplus, but it will take some time to mature.

There is nothing of note to mention about other jail gardens.

Hospital charges.

31. The total cost and cost per head have been Rs. 1,05,112 and Rs. 7-10-9 against Rs. 93,877 and Rs. 6-3-1 in 1919. The increase was due to—

(1) the increase in admission to hospitals (15,025 against 12,990 in 1919)

(2) liberal extras allowed to prisoners who suffered from influenza ; and

(3) more quantities of medicines ordered for the larger number of patients.

Clothing and Bedding.

32. The total cost and cost per head increased (Rs. 1,34,670 and Rs. 9-13-3 against Rs. 1,21,994 and Rs. 8-0-8 in 1919), the increase being due to higher rates of yarn.

The habituals have been put into distinctive clothing as remarked on elsewhere.

Sanitation charges.

33. The total cost has increased (Rs. 42,145 against Rs. 37,985) and the cost per head (Rs. 3-1-3 against Rs. 2-8-1). The increase was due to increased rate of taxes by the municipality at Bombay; increased use of disinfectors; repair charges to the water pump at the Yeravda Central Prison; and contribution of three years war allowance and current year's contribution to the Dhulia municipality for vaccination.

Charges for moving prisoners.

34. Both the total cost and cost per head have largely decreased (Rs. 50,389 against Rs. 77,984 and Rs. 3-10-10 against Rs. 5-2-3), owing to the decrease in population. It might have decreased further, had it not been necessary to keep on transferring prisoners from His Majesty's Common Prison, to relieve overcrowding.

Charges for miscellaneous services and supplies.

35. The total cost has increased (Rs. 74,254 against Rs. 69,459) and the cost per head (Rs. 5-6-9 against Rs. 4-9-3) being due to—

(1) increased rate of kerosine oil for lighting purposes,

(2) construction of a big mandap, and extensive repairs to jail buildings and establishment quarters at the Sind Convict Gang, and

(3) garry hire to the Superintendent, Karachi Prison, to visit detachment of prisoners working at Kiamari.

Travelling allowance.

36. The total cost has increased (Rs. 8,803 against Rs. 6,312). The increase being due to—

(1) more transfers of jailors and clerks, and travelling allowance paid to recruits in Sind,

(2) the jailors of the Yeravda Central Prison and His Majesty's House of Correction had to go to Calcutta, to identify accused persons in Criminal Courts there,

(3) the jailor and one warder of Karwar Prison were sent to Cochin to purchase coir yarn, and

(4) increase in journeys by clerks, in my office, on inspection duty with me.

Contingencies.

37. The total cost and cost per head have increased (Rs. 21,050 and Rs. 1-8-7 against Rs. 15,413 and Rs. 1-0-3). The main cause for the increase was the increased cost of printing and binding charges for the Jail Department (Rs. 7,183 against Rs. 2,751 in 1919) owing to the printing of special forms for the department during the year. These forms, which were supplied to a few jails only, are now supplied to all. Renewal of office furniture accounts for a small portion.

Extraordinary charges for live-stock, tools and plant.

38. The total expenditure has increased (Rs. 14,389 against Rs. 8,140) and the cost per head (Rs. 1-0-10 against Re. 0-8-7).

This increase was unavoidable. During the past five years most rigid economy has been observed in purchasing dead stock articles. And this has naturally resulted in the necessity to replace wornout articles, *e. g.*, conservancy pans, carts, zinc pots and plates, lamps, fetters, iron cots, etc. This may continue for a couple of years longer, until all unserviceable articles are replaced. Our case is much the same as that of the State Railways in India and the present condition of their rolling stock, which has not been replaced for five years.

Statement No. XI—Employment of convicts.

39. The average number of prisoners sentenced to labour shows a decrease (11,041 against 11,404 in 1919). The percentage of those employed on manufactures and extramural work was 35·2 against 36·5 in 1919; the difference of 1·3 was due to the employment of 7·2 in the gardens against 6·0 in 1919.

Statement No. XII—Net cash earnings.

40. The net cash earnings have decreased (Rs. 1,93,881 against Rs. 2,51,811), a decrease of Rs. 57,930. The prisons of Dhulia, Dharwar, Karwar, Karachi, Hyderabad, Aden and the Deccan Convict Gang show an increase in profits, while the rest of the prisons including Sind Convict Gang show a large decrease amounting to Rs. 58,528. The Wadhwan Civil Station Jail shows a profit of Rs. 765 against Rs. 189 in 1919.

The total increase in profits gained by the 8 prisons and the 2nd class sub-jails amounts to Rs. 30,664 and the decrease against the rest of the prisons was Rs. 88,594, the difference being Rs. 57,930, which can be explained thus—

(1) smaller number of labouring prisoners (11,041 against 11,401 in 1919),

(2) the balances under manufactured articles and raw materials at close of 1920 were in excess by Rs. 40,350 as compared with 1919. If this excess had been sold, it would have added to the cash profits,

(3) the year 1919 opened with an excess balance of Rs. 34,025 under manufactured articles and raw materials, and there was no necessity to draw money out of the Treasury in 1919, and thus the cash profits in that year were increased, and

(4) a loss of Rs. 17,950 under sale of quinine powders at the Yeravda and Hyderabad Central Prisons, owing to the increased buying rate of quinine from Rs. 28 to Rs. 33 per pound. The quinine was sold at the same price as before.

Besides these general remarks I offer special remarks on some important jails.

Yeravda Central Prison.—A sum of Rs. 37,746, being the maintenance charge for the prisoners employed in the Press, has been included in the earnings of the prison. Otherwise the loss would have increased to Rs. 42,099 instead of Rs. 4,353 as at present.

Bijapur Prison.—Owing to famine conditions, the sale of manufactured articles to the public was much diminished. They have a large balance of manufactured articles in stock.

Thana Special Prison.—Practically all manufactured transportation clothing is on hand, as prisoners were detained owing to an epidemic of mumps.

Ahmedabad Central Prison.—There was no contract with the military department for clothing in 1920. It was a source of large profits in 1919.

Sind Convinct Gang.—Much construction and extensive repair work was carried out, in consequence of which a smaller number of prisoners was employed on extramural work (298 against 453 in 1919). And these were given to the North Western Railway Department, for breaking ballast for the line.

Quinine treatments of the value of Rs. 39,535 were received from the Medical Storekeeper, Bombay, and 4,020 parcels were distributed. These transactions have also resulted in a loss of Rs. 18,178 due to the difference of Rs. 2-8-0 between the purchase and selling prices of the treatments.

In October last, with a view to increase the supply of jail-made articles to Government Departments, I issued a circular letter, with a list of articles manufactured in the jails of the Presidency, to all heads of departments and several Government Officers. After a year or so, I shall be in a position to see how far success in this direction is attained. I have managed to get orders from the Royal Indian Marine.

In several jails I inspected I found men on quarantine sitting doing nothing. This was soon stopped. I have tried to impress on the staff that we must get something from everyone. Those infirm from old age and so forth can always pick cotton, sift grain, and do very light tasks, which all help to increase the total outturn. And, besides it keeps them out of mischief. And so, indirectly, saves reports and punishments, with, consequently, less work to the staff.

41. Jail-made articles of the value of Rs. 1,09,814 against Rs. 98,865 in 1919 were supplied to Government Departments as detailed below :—

	Rs.
Public Works Department	9,207
Police Department	36,391
Marine Department	3,780
Military Department	1,506
Other Civil Departments	31,012
Somaliland Protectorate	5,434
Basrah and Baghdad Jails	21,892
War Hospitals	592
Total ..	1,09,814

Deccan Convict Gang.

42. The Gang remained at Visapur in the Ahmednagar District throughout the year. With an average of 1,794 prisoners sentenced to labour, the net cash profit amounted to Rs. 70,503 against Rs. 61,229 with an average of 1,907 prisoners in 1919. The health of the prisoners was satisfactory, except during the influenza epidemic.

The Gang lost a very valuable Superintendent—valued not only by this Department but also by the Public Works Department—in Mr. C. N. Hall, I.S.O., who retired on 17th November 1920 "on expiry of the leave granted to him." I hope to obtain his services for the organization of the Bhatgar Convict Gang.

Mr. C. H. Brierley, M.B.E., took charge on 12th January 1920. Owing to a very poor monsoon there has been difficulty about water-supply. But the efforts of Mr. Brierley have triumphed. New wells were opened in or near the river-bed, and old wells cleansed and tested bacteriologically. The gardens supplied vegetables for all the year, and onions for half year. Condiments have been sown in addition. But there is this constant struggle for water.

Incinerators for hospital, an addition to hospital, and latrines in warders' lines were built during the year. All this was done by convict labour alone.

There are now a large number of trained masons in this Gang. And the Executive Engineer says the work done by them is as good as any outside work. These men will be very useful at Bhatgar on the masonry of the dam, several of them having fairly long sentences. Besides these, a number of men have been trained in rough smithy and carpentry work.

The Public Works Department say dam work will be completed by March 1922 and the whole work by October 1922 (only 500 convicts being required for a general clean up). The question therefore of the employment of these convicts becomes an urgent one from next April 1922, and therefore the Bhatgar scheme should be in full work by then.

The conduct and discipline of the paid staff has been satisfactory.

Besides Mr. C. H. Brierley, I must mention the names of Messrs. R. Amritlingum, Jailor, and Ishwarlal, Deputy Jailor, for good work.

The Hur Settlement has given no trouble.

Sind Convict Gang.

43. This Gang was at Ganja Takar near Hyderabad (Sind) during the whole year. It showed a net cash loss of Rs. 22,544 against a profit of Rs. 50,033 in 1919; the average number of prisoners sentenced to labour was 622 against 800. The reason of the fall in profits has been stated under paragraph 40.

The health of this Gang was satisfactory, the death-rate was 20·9 against 47·5 in 1919, deaths being 13 against 38.

Prison Press.

44. The outturn of the Yeravda Prison Press during 1920 was as under :—

Main Sections.	Units.	Outturn.
Composing	Pages, F'cap folio, Solid Pica	17,378—0 lines.
Stereo Foundry	Lb. finished Plates	7,313—7 ozs.
Machines	Impressions, F'cap	52,759,579
Hand Presses	,, ,,	3,563,744
Hand Sewing	Sections, F'cap folio	156,060
Machine Sewing	,, ,,	309,742
Casing In	Books (Half Bound, F'cap folio, 100 leaves).	99 359
Ruling	Impressions, F'cap	21,395,173
Paging	,, ,,	12,075,153
Perforating	Cuts	1,648,140
Folding	F'cap folio, Single fold	9,254,112
Collating	,, ,,	17,427,617
Wire-stitching	Stitches	2,850,214
Insetting	Insets	4,964,688
Eyeletting	Eyelets	370,545
Envelope-making	F'cap thin envelopes	17,689,505
Embossing	Impressions	219,802
Miscellaneous Productive	Hours	2,868—45 Mts.

Compared with 1919, the increase in outturn is a little over 21 per cent.

The Press deals in all standard and special forms and a portion of book-work and complies with about 15,000 separate requisitions in a year, both from Civil and Military officers and also bodies financially independent of Government. During the year a portion of Census and Reforms work was done at the Press, and, these being additional items, the Press had to work under considerable pressure.

The employment of released prisoners was favourably considered recently. And out of 3 applicants, two have been entertained with very good results, both as to their work and conduct. One is earning Rs. 30 per mensem, and the other Rs. 58 at efficiency wage. The third application is still under consideration. It is hoped other prisoners may be employed in course of time. This also shows that the training of the Press operations is of a reformative character, and if sympathetically assisted should give good results. A convict employed in the Press can get an honest living, after his release, should he choose to take up the trade, which at the present day is expanding, and is in need of trained labour.

Government printing in a Jail Press utilizes convict labour to the best advantage from the tax-payer's point of view, relieving the State of the equivalent burden of the cost of maintenance. The Yeravda Press now employs a daily average of over 400 convicts. We will try to increase the number gradually.

Government have invested a large amount of capital in buildings and plant of a special character for this jail industry, the question of insurance against fire appears to merit special treatment. Up to the present, Government have refused to entertain this suggestion. But looking to the peculiar conditions under which the industry is run, I would recommend this being done.

Jail Industries.

45. I append a short note on the industries carried on in the different jails. Details would take up too much space in the report. But should any Government department require information on the subject this office would supply it very willingly.

Yeravda Central Prison.—

(1) Press has been noted above.
(2) Woollen carpets
(3) Cotton carpets } demand much in excess of supply.
(4) Cane work

At my suggestion, space in the carpet sheds has been economised, by installing upright looms for those lying on the floors. The sheds look much neater, and one can move about more easily. Gradually all looms will be of the upright kind.

(5) Cotton and woollen clothing for convicts.
(6) Leather chappals, shoes and thongs for use of jails.
(7) Iron pots, plates and bedsteads (hospital).
(8) Office and other furniture (when labour available).

Ahmedabad Central Prison.—Very much the same as above, except that no woollen carpets are manufactured. Khan Bahadur N. R. Wachha has brought the manufactures of this jail to a very high pitch of excellence. And the outturn never remains in the sale room. In spite of all the cotton mills in Ahmedabad, the demand for his manufactures far exceeds the supply.

Hyderabad Central Prison.—The same as Yeravda and Ahmedabad Central Prisons. The work is not of such excellence, though good. Khan Bahadur K. M. Clubwala has increased the outturn considerably during his term of office.

His Majesty's House of Correction and Karwar Prison.—Principal industry coir. Manufacture mats for all prisons.

His Majesty's House of Correction also supplies Royal Indian Marine with articles made out of coir.

Karwar manufactures cocoanut oil for supply to jails, and coir mats for prisons.

His Majesty's Common Prison.—A small amount of clothing and oakum picking.

Sukkur Prison.—Natural wool carpets. A very small manufactory here. Besides this, a small amount of cotton articles (e.g., carpets, tape, towels, chair carpets, etc.) is woven.

Karachi Prison.
Dhulia Prison.
Bijapur Prison.
} Woollen blankets for jails. A variety of cotton articles, e.g., towels, dusters, napkins, sheets, purdahs, dungri cloth, cot tape, etc. The last named jail is famous for its "Prayer Carpet."

Dharwar Prison.—Chiefly furniture and Police batons.

The looms in some of the jails are of a very old pattern and will require to be changed gradually, as money becomes available.

Statement No. XIII—Net Cost.

46. The average net cost to Government per prisoner was Rs. 142-9-0 against Rs. 133-12-0 in 1919.

VITAL.

Statement No. XIV—Sickness and Mortality.

47. The following table compares the principal features relating to sickness and mortality for the years 1919 and 1920 :—

Year.	Daily average strength.	Admission into hospital.	Daily average sick.	Total number of deaths.	Ratio of deaths per mille.
1919	15,194	12,990	418·9	351	23·1
1920	13,728	15,025	419·1	278	20·3

48. The death rate per mille is 20·3 as against 23·1 in 1919.

A recrudescence of influenza caused 87 deaths. There were severe epidemics Yeravda Central Prison (26), Deccan Convict Gang (22), Ahmedabad Central Prison (21), Sukkur District Prison (7).

Had this been absent, the rate per mille would have dropped to 13·9.

49. Seven prisons had a percentage of over 20 per mille.

His Majesty's Common Prison—34·6. 15 deaths.

Of the 15 deaths, seven were admitted in bad health ; and, practically, straight into hospital.

Tubercle of lungs 2, one direct into hospital.

Pneumonia and Broncho pneumonia 5.

Two within two days of admission.

Bowel complaints 4, 2 direct.

Other diseases 4 ; insanity (under-trial) died within five days of admission. Jaundice direct admission to hospital. Chronic bronchitis, suspected tubercle, transferred to Thana tubercle ward. And suicide by hanging. This has been remarked on elsewhere.

Considering the chronic overcrowding in this jail, and the fact that a large number of admissions were in poor health, the efforts of the Superintendent, Medical Officer and staff to keep it healthy and free of infective disease, have been successful.

His Majesty's House of Correction—27·4. 6 deaths.

Of the 6 deaths, 2 were admitted straight into hospital and a third was a case of suicide. All cases were in a poor state of health on admission to jail.

Tubercle 2—

1 hip-joint (died of exhaustion due to constant suppuration),

1 sent to tubercle ward, Thana, and died.

Syphilis (Tertiary) 2.

Heart disease 1
Wound (penetrating) 1

So that, on examination of the figures in one case only can death be said to be due to anything in the prison.

The case of wound was that of a habitual (in a small party of prisoners who were sitting and waiting to have their appeals against sentence written up) who rushed into the carpenter's shop, near by, seized a chisel, and stabbed himself in the abdomen and neck with it, before any one could interfere. As he was going to stab himself again in the throat, he was seized by another convict. He was taken to J. J. Hospital where he died. He said his reason for doing so was that he had been unjustly convicted, and sent to prison.

Yeravda Central Prison—22·5 per mille. 47 deaths.

Influenza accounted for 26 of these cases.

A severe outbreak occurred during the end of February, and continued through March and April. There were 917 cases. It was noticed that half the number who died were between 40 and 70 years of age. Death being due in most cases to heart failure, following pneumonia.

Inoculation by vaccine was not a success.

Tubercle—5—as there is a tubercle ward in this jail, cases from other jails are sent here.

Pneumonia	5	Diarrhœa	2
Dysentery	1	Other diseases	8

Seventy-five per cent. of admissions into jail were in good health.

Deccan Convict Gang—30·6 per mille. 55 deaths.

Influenza. There were 213 cases and 22 deaths. The epidemic broke out in March, continued through April and died down in May.

Inoculation by vaccine was found ineffective.

It is quite clear that the vaccine for influenza has yet to be found. I gave every facility to the Influenza Officer, Captain H. H. King, to test the vaccine and he has come to the same conclusion.

The death rate (excluding influenza) was 18·4 per mille, which is good for a prison having a daily average of 1,800.

The other deaths were due to

Pneumonia and Broncho pneumonia	10
Tubercle of lungs	4
Other respiratory diseases	3
Diseases of bowels	8
Other diseases	8

These latter are put under one head for convenience sake, as not being worth mentioning seperately.

Ahmedabad Central Prison—29·2 per mille. 34 deaths.

Influenza accounted for 21 deaths. The outbreak occured here in January, and continued through February and March. There were in all 209 cases.

Tubercle	4
Pneumonia	4
Other diseases	5

The death rate, exclusive of influenza was 11·1 a good record.

Here I would mention the name of Assistant Surgeon G. R. Khandidia, M.B., B.S., who has shown great keenness in his work. And his hospital was a picture of cleanliness and tidiness when I inspected the jail.

Sind Convict Gang—20·9 per mille. 13 deaths.

Pneumonia accounts for 9 deaths. This disease seems to be of a variety peculiar to Sind. And Government are going to have a special enquiry on the subject. Most of the cases occurred in March, April and May, a time in which one does not look for the ordinary pneumonia.

The health of this gang greatly improved in 1920. I attribute a good deal to the trouble taken by the Superintendent Assistant Surgeon D. J. Desouza, L.M. & S. He came at the end of 1919 and the gang was in a most unsatisfactory state, both medically and otherwise. By dint of hard work, he has made a great improvement all round. He has been loyally helped by his jailor Mr. A. E. Kately.

Ratnagiri Prison—20·5 per mille. 4 deaths.

Three deaths here were due to causes that could not be attributed to anything in the prison (hemiplegia, cerebral thrombosis, and heart disease).

Hyderabad Central Prison—5·2 per mille. 6 deaths.

Has a very good record for the year. It has been fortunate in having no influenza *epidemic*.

Statement No. XV. 50. Prevailing diseases.

Dysentery.—There was a large drop in admissions (407 against 896 in 1919). Warnings were sent out from office to all the jails, where this disease had been specially prevalent in 1919, to take extra precautions over water supply, food, and cooking.

Diarrhoea.—A good fall here also (496 against 710) Yeravda Central Prison shows the most cases (213) with two deaths.

Malarial fevers showed a decline also (2,262 againt 2,691). Yeravda Central Prison and Hyderabad Central Prison accounted for half the number of cases—which occurred more or less throughout the year.

The admissions per mille were very high in Common Prison 777·8, showing how malarial Bombay still appears to be.

Pneumonia has already been noticed. The only point of interest is the high admission rate in all the Sind Jails (86·3 per mille) except Hyderabad.

Influenza has been remarked on elsewhere.

Pyrexia of uncertain origin showed 221 against 88. Two hundred of these occurred in Deccan Convict Gang and 17 in Yeravda Central Prison. There were no deaths.

The Medical Officer of the Gang attributes the large increase to sudden changes in the weather and heat of the place.

The year has been (if we except the influenza epidemics) a very healthy one for the prisons.

No extra accommodation for tubercular patients was constructed this year.

51. There was overcrowding in 12 jails noted below. But the overcrowding was not so great as in 1919 :—

The prison accommodation is	9,723
Daily average in 1919 was	12,081
Daily average in 1920 was	11,509

Prisons.	Accommodation.	Daily average strength.
Common Prison	180	425
Yeravda Central Prison	1,548	2,085
Dhulia Prison	530	540
Dharwar Prison	347	362
Bijapur Prison	313	446
Thana Special Prison	688	772
Ahmedabad Central Prison	1,013	1,165
Rajkot Agency Prison ..	85	105
Karachi Prison	368	595
Hyderabad Central Prison	906	1,156
Sukkur Prison	386	617
Sind Convict Gang	530	622

I am increasing the accommodation in Sind Gang by having more barracks entirely by jail labour) constructed.

I would here point out that awarding inadequate sentences to men with a large number of previous convictions seems to me a direct cause of overcrowding. especially in Bombay.

Owing to want of funds the new Central Jail at Kurla and the Undertrial Jail in Bombay could not be started.

52. The following methods were adopted during the year under report with a view to improve the health of the prisoners confined in our prisons, and are inserted in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115, dated 29th December 1896 :—

(1) Issue of wheat and rice in lieu of bajri and jowari in certain cases.
(2) Issue of two ounces extra flour and one ounce of molasses to working prisoners in the Deccan Gang.
(3) Issue of wheat in lieu of bajri and jowari at the Sind Gang, antiscorbutic chatni in the hot weather, and molasses with morning conjee.
(4) Issue of extra rations to weakly prisoners and convalescents.
(5) Issue of quinine as a prophylactic against malaria.
(6) Issue of potatoes and onions in the vegetable ration.
(7) Issue of extra warm clothing when considered necessary.
(8) Inoculation with plague prophylactic serum.
(9) Physical drill at Dharwar Prison.
(10) Teeth scaling.
(11) Segregation of scabies and ringworm cases.
(12) Issue of limes and pickles as antiscorbutic to prisoners with spongy gums, and to prevent scurvy.
(13) Chemical treatment of drinking water at Rajkot.

53. In Subsidiary Jails and Lockups the population, the daily average strength, etc., were much decreased as shown below, except admissions into hospital :—

Population	..	85,054	against	1,01,284	in	1919.
Daily average strength	..	2,192	,,	3,085	,,	,,
Admissions into hospital	..	3,888	,,	2,261	,,	,,
Daily average sick	..	26·2	,,	32·5	,,	,,
Deaths	..	47	,,	68	,,	,,
Death rate per mille	..	21·4	,,	22·0	,,	,,

54. Prisoners' weighments.

The following table compares the figures for the years 1919 and 1920 :—

Year.	Number of prisoners discharged.	Of the number discharged those who		
		Gained.	Lost.	Remained stationary.
1919	28,001	16,113 or 57·5 per cent.	5,925 or 21·2 per cent.	5,963 or 21·3 per cent.
1920	23,468	14,382 or 61·3 per cent.	4,540 or 19·3 per cent.	4,546 or 19·4 per cent.

OFFICIAL AND NON-OFFICIAL VISITORS.

55. There were 269 official visitors. Sixty-two quarterly meetings were held, all being well attended. Five hundred and thirty-four visits were paid by official visitors and 100 by non-official visitors.

BUILDINGS.

56. The following major and minor works were completed during the year :—

Major.

Ahmedabad ..	A new workshed in Ahmedabad Central Prison—very necessary. Block of 8 cells for condemned prisoners. Warders' quarters.
Aden ..	Quarters for head clerk and compositor.
Yeravda ..	Reroofing of sleeping barracks.
Hindalgi ..	Proceeding with building of new jail.

Allotments for other works were subsequently withdrawn, and reappropriated for urgent works in other departments.

Minor.

Works done out of the discretionary grant were :—

Ahmedabad ..	New well in prison garden urgently necessary to make this place independent of rainfall. Iron plates to doors of separate cells for security.
Aden ..	Construction of an incinerator for burning rubbish. Making platforms for, and fixing grinding stones in workshed.
Yeravda ..	Necessary improvements to officials' bungalows. Latrine attached to cook house. Drain from Press quarters to garden for sanitary reasons.
Ratnagiri ..	Floors of cells concreted.
Karwar ..	Improvements of water supply. Latrines for clerk, Sub-Assistant Surgeon, and undertrial prisoners. Converting shed into solitary cells. There are no solitary cells in this prison.
H. M.'s Common Prison ..	Improvements to windows in undertrial yard. Improvements to kitchen. Gas burners replacing wood firing. Result—no smoke and a clean kitchen. This is an immense improvement, and is more economic than use of wood.
H. M.'s House of Correction ..	Improving the hospital. From being dark and gloomy it is now light and cheerful. Much more hope of curing the patients in it. Improvements in lighting of the barracks.
Bijapur ..	An extension of workshed—very much needed improvement.
Shikarpur ..	A new well in garden. Floors of hospital. A distinct improvement on the old insanitary mud floor.
Dharwar ..	Much needed improvements to the latrine arrangements.

The other minor works in jails call for no remarks.

MISCELLANEOUS REMARKS.

57. I visited all the jails in the Province except Karwar (visited in November 1919) and Aden.

Central Prisons.	District Prisons.	Sub-Jails.	Gangs.
Yeravda ..	H. M.'s Common Prison, Bombay ..	Belgaum ..	Deccan Gang.
Ahmedabad ..	H. M.'s House of Correction, Bombay ..	....	Sind Gang.
Hyderabad ..	Dharwar.		
	Bijapur.		
	Thana.		
	Dhulia.		
	Ratnagiri.		
	Raikot.		
	Karachi.		
	Sukkur.		
	Shikarpur.		

My inspection of Yeravda Jail took twenty-one days and in all I made thirty-six visits to it during the year.

The Ahmedabad inspections took eight and Hyderabad seven days.

The inspections of the smaller jails took generally three to four days. To the Deccan Convict Gang I made short visits at intervals. The Sind Gang was visited while at Hyderabad.

Borstal Juvenile Jail, Dharwar.

58. The year opened with 299 lads. There were 292 admissions against 278 the year previous and 253 releases, transfers, etc., leaving a balance of 336 at the close of 1920. Within the last four years our numbers have increased by 240 showing that the Magistrates recognise to a certain extent the value of the Institution. However, it may be as well to point out that a trade cannot be taught within 12 months, the minimum period for which a lad can be sent there.

Transfers.—Five bad characters were transferred to the Deccan Convict Gang.

One to the Bijapur Prison, as the lad was over 21 years of age on admission.

One was sent to the David Sassoon Reformatory, being 13 years old.

Releases.—Two hundred and eight were released in the ordinary way and sent to their homes.

Fifteen were conditionally released. Of this number 11 went to the Salvation Army Released Prisoners' Home, 2 to the Boys' Industrial Home, and 2 to the Criminal Tribes Settlement at Bijapur. One is put on masonry work and the other on mill work. They are progressing well and behaving satisfactorily.

Twelve, incarcerated in connection with the Ahmedabad riots, were released, *vide* Government Resolution, Judicial Department, No. 600, dated 19th January 1920 :—

Released—4 on appeal.
1 on bail.
1 escaped.
2 died.
3 military, the unexpired portion of their sentence being remitted by Military Authorities.

Industries taught are :—

Gardening, both flower and vegetable.
Masonry.
Blacksmith's work.
Tinning. } started a few months ago.
Cane work. }
Pottery. }

On release 6 boys were presented with carpentry tools. The day's work is as follows :—

Rise 5-30 a.m., wash, receive early morning meal of Kanji. Then attend gymnasium or drill (squad and physical) for an hour.

Then work at their various trades till 9-30. Then parade for cold water bath, unless unfit They all enjoy this, and very soon it is looked forward to with keenness. Then comes breakfast (two breads and dhall). Return to work at 11 a.m.

Attend school for an hour, in batches, according to the language they are learning.

At 4 p.m. cease work bell. Then parade for bath and evening meal (two breads and curried vegetables).

Lockup about 6 p.m. Well behaved lads allowed slates and library books.

They have, thus, a full day, and not much time to get into mischief.

Monitors can write home once a month.

Special grade boys can write once in two months.

Ordinary grade boys can write once in three months.

Religious instruction is given by Professor Moulvi of the Karnatic College and Mr. Moulvi. And here I would take the opportunity of thanking them both for their good work—one of the most important in the boy's curriculum.

The school was inspected by the Educational Department on 4th April and progress reported satisfactory. But at present there are no examinations proper.

The Educational Department suggest teachers in Marathi, Gujarati, Urdu and Kanarese. This question will be taken up in due course.

The majority of boys are illiterate, and are taught up to the third standard. Sweets are given to those showing good progress. I hope to arrange for some more substantial reward.

The drill consists of Indian club swinging and physical exercises. And the effect on the boys is soon apparent. I was very pleased with the exhibition at my inspection (22nd August 1920). The Superintendent says the difference is so marked that you can pick out new arrivals from those who have been six months in the place.

The attempt is made, and fairly successfully, to create an atmosphere quite different to that of a prison. No fettering, no prison clothing, as much freedom as possible, and trusting the boys. And the boys are said by the Superintendent to respond very well to this treatment.

On my advice, Mr. T. J. Reed, the Superintendent, visited the Borstal Institutions (Feltham and Borstal) at Home while on leave; and the prison at Bedford. I repeat his words here :—

" On the advice of the Inspector General of Prisons, I visited the Institutions at Borstal and Feltham, also the prison at Bedford where a certain number of boys are confined, when on six months' leave last year. I was greatly impressed with the first two institutions where everything appeared to be up to date in the requirements for the work in hand of shaping of young life to happy and useful aims.

The lads on admission are confined in Cubicles or Cells for at least 3 months of their sentence, and it is only when they are promoted to the Special Grade do they remain in association and this is how it should be. Here the boys are confined in barracks, but when the reconstruction of this old prison is taken in hand, which should not be longer delayed, no doubt there will be a larger number of cells, for obvious reasons.

Then again the staff at these Institutions consists of picked men, not only for such skill at their work which must command respect but men with character as will radiate a constant and strong influence. The boys are first seen by the Chaplain, Doctor and Governor in turn and it is from these officers a lad receives his first impressions, for good.

Hard work is the order of the day at these Institutions. The inmates get up early and attend drill or gymnastics in a pukka built gymnasium till 7 a.m. Then follows breakfast and after about 8½ hours' work with a break for dinner at noon. The work consists of carpentry, bricklaying, gardening, farm work which includes milking, care of farm stock, hedging and ploughing, boot making, baking, cooking, blacksmith's work, and tailoring. Work over, tea is served and then a short service in the Chapel. Evening classes follow with perhaps a lecture or address and the day ends with lights out at 8-30 p.m.

The Borstal Association undertakes the aftercare of every lad on release and I believe it is due to this Association that the success of the Institutions largely depend. They find work for him, necessary tools or special outfits are provided and if his wages are insufficient at first to maintain him they are supplemented. In the event of a first job failing, or proving to be beyond a boy's powers, further chances are afforded him, in fact the interest of the Association never seems to cease."

We must endeavour to run ours on the same lines, making allowances for difference of race, customs, and surroundings.

A great deal depends on the aftercare of these lads and that is at present a weak point in our institution. But I hope, in time, to rouse public interest enough, to inaugurate a regular organisation to look after these lads, from the time they enter to the time they get settled after release.

Besides the quarterly meetings four visits were paid by the official visitors and 16 by the non-official visitors.

Punishments.—Five hundred and seventy-nine compared with 695. Two dealt with by Criminal Court as against 5 in 1919. Those relating to work are much less. These points fill one with hope that the methods used are beginning to react favourably.

Mr. T. J. Reed, the Superintendent, took a well earned leave of six months from 19th March 1920 and Mr. E. L. Wickham, the jailor, acted for him and carried things on quite efficiently. I visited Dharwar in August and found things going well. Owing to a sudden call elsewhere my time there was cut short.

59. The thanks of the department are due to this society and especially to Mr. M. R. Chitnis, Mr. D. N. Kotwal, Mr. G. K. Dikshit and Mr. T. A. Kulkarni (of the Social Service League). This society helped nearly 600 prisoners and spent over Rs. 2,000 in doing so. The nature of their help is clearly given in their report, and consisted in finding employment, restarting businesses, giving food, clothing, and money to released prisoners on their way home. A very important work carried out by Mr. G. K. Dikshit was seeing first offenders before trial—and getting them the benefit of section 562 of the Criminal Procedure Code. I wish them every success, and hope their work will grow. I think we may safely say that they have had something to do with the decrease in numbers this year. Being a very onerous, harassing, and thankless job they are entitled to great credit for their efforts.

Released Prisoners' Aid Society, Bombay.

From Bijapur a most interesting report came to the office of the work done there. The object here has been the conditional early release of prisoners, and helping them to earn an honest livelihood on release, under supervision in most cases. It gave relief during the year to 16 prisoners with marked success; and helped 23 others to get home. They have received valuable help from Mr. O. H. B. Starte, I.C.S., who is carrying on a great work amongst the Criminal Tribes settled there. Mr. A. R. Prabhu, the honorary secretary, mentions with gratitude the names of Messrs. F. W. O'Gorman, Chunilal Panalal and Rao Saheb Sidramappa. Mr. O. H. B. Starte, I.C.S., and Mr. F. W. O'Gorman are well known to all in their rescue work.

I accompanied the Jail Committee, and went round Bijapur and Sholapur, and was much struck by the good work done to reclaim the Criminal Tribes here also.

I would like to see some efforts of this sort started in Sind. At present they are conspicuous by their absence.

60. The Annual Report of the Salvation Army Boys' Home has been submitted. Thanks are here given to them for the good work they are doing in the jails.

61. A report on the Hur Settlement at Visapur has, under orders of Government, been forwarded to the Criminal Tribes Settlement Officer, Bijapur.

62. The pay of the Superintendents (non-medical) has been provisionally increased by 20 per cent. till the revised scale appears. The pay of the clerks has been revised.

But the pay of the jailors and warders is still under consideration. I am hopeful that it will soon be settled. For they are a hard-working lot. And, in spite of the delay, there has been no grumbling, and they have worked loyally.

63. The year's results are as follows :—

The gross cost per head was Rs. 160-7-7 against Rs. 153-7-11 in 1919.

The net cost per head, exclusive of charges on account of inspection and general supervision, was Rs. 143-9-0 against Rs. 133-12-0.

The cash earnings were Rs. 1,93,881 against Rs. 2,51,811. The death rate was 20·3 against 23·1.

64. I here mention the names of the following officers for good work. These have not been noted in the body of the report :—

Jailor Mr. J. Read
Assistant Surgeon V. L. Bakshi, M.B., B.S. } Yeravda Central Prison.

Jailor Mr. R. J. Jakatdar
Jailor Mr. V. T. Salsingikar } Ahmedabad Central Prison.

Sub-Assistant Surgeon S. Bachawal for good work in Sukkur hospital.

Sub-Assistant Surgeon P. B. Potdar for neatness and cleanliness of Bijapur hospital.

Jailor Mr. V. P. Almeida in Dhulia prison for his good work, especially in the garden.

Jailor Mr. Keshavlal Hiralal for good work in Karwar prison.

Jailor Mr. P. A. Fernandez in Ratnagiri prison.

65. Mr. K. N. Ratnaparkhi, my Personal Assistant, has been very helpful and Messrs. S. R. Choubal, S. M. Gokhale and S. S. Deshpande when on tour. The remainder of the staff have worked satisfactorily during the year.

I have the honour to be,

Sir,

Your most obedient servant,

F. O. N. MELL,
M.B., C.M., D.P.H.,
Lt.-Col., I. M S.,
Inspector General of Prisons,
Bombay Presidency.

PART II.

STATEMENTS.

General Summary showing the Distribution of the Prisoners of all Classes
